What sets us apart

- Fortune 100, healthcare, government & retail enterprise leadership
- Governance-first approach to data, AI & digital modernization
- Platform-flexible solutions tailored to your environment & budget
- Full delivery — strategy through implementation, not just advice
- Proven civic intelligence & public-sector data platform experience

Representative Solutions & Experience

Bond Analytics — Texas ISD

Data-informed analytics for a **\$6.2B** school bond program — dashboards for transparency and community oversight.

Civic Intelligence Platform

Public-facing civic data portal for city government transparency, resident engagement, and open data access.

Nonprofit Grant Analytics

Community needs assessments and grant-support analytics deployed across multiple nonprofit organizations.

AI Readiness & Governance

Enterprise AI readiness assessments, governance frameworks, and data stewardship system implementations.
